Motivated IT undergraduate with hands-on experience in mobile and web development, actively developing expertise in the MERN stack through university projects. While I don't yet have industry experience, I am skilled in both front-end and back-end development, with a focus on creating user-friendly, efficient solutions. Committed to following best practices and contributing innovative ideas that add value for customers and businesses. Eager to apply my technical skills and fresh perspective in a collaborative team environment and to learn from experienced professionals.

Skills

Languages & Markup:	MERN ,Java, JavaScript, Python, HTML, CSS, C, PHP
